

**USA - Electrical Outlet Caps**

**KIDDY COP**

**Kiddy Cop Electrical Outlet Caps**

**UL Listed Insulating Closure 267B**

To be installed and/or used in accordance with appropriate electrical codes and regulations.

For use with common 2-wire and 3-wire single and duplex outlets (15A & 20A 125V).

- Seals unused outlets. Covers live contact openings completely.
- Helps prevent children from inserting objects into live outlets.
- Ideal for homes with small children.

**WARNING:** This product is not a toy. For adult use only. Risk of electrical shock exists.

**CAUTION:** If the safety caps fit loosely in your outlets, it may be that your outlets are worn and should be replaced.

**KIDDY COP** products are specifically designed to help protect your child from potentially dangerous electrical currents.

**ADDITIONAL WARNINGS:**

**Risk of fire or electric shock.** If the closure falls out of or fits loosely in the receptacle, the receptacle contacts may be worn or broken. To reduce the risk of fire or injury caused by overheating, arcing or exposure of live plug blades, do not use the receptacle until it has been examined by a licensed electrician to determine whether the outlet needs to be replaced.

**Risk of electrical shock.** This device is intended to make it difficult for children to gain access to energized outlets. Like any other child-resistant product, this device is not a substitute for adult supervision. An unsupervised child may be able to defeat this product. As with all electrical products, precautions should be observed during handling and use to prevent electrical shock. Discourage children from playing with electrical equipment.
