- Over temperature one-time thermal device
- Nichrome coil element for quick heat
- Powder coat paint process eliminates sharp metal edges
- Wall can designed for ease of installation

„CC“ Wall Can (optional)

Heater Assembly

Grill

The Com-Pak™ Plus is our most popular in-wall fan heater. An economical choice that includes our highly regarded safety components. Offering models up to 2000 watts at 240V, these heaters are perfect for smaller areas or larger areas needing the dispersed heat created by multiple heaters. We recommend a wall-mounted thermostat for optimum performance, or you may prefer the convenience of an optional built-in thermostat.

Catalog No.	Description	Weight/ea	EDP-No.
CC101TW	Fan Heater, 1000W / 120V / 8.33A	3,250 kg	122611
