High Security Industrial / Government Key Box

Knox-Box® — 3200 Series Lift-Off Door Model

The number one high-security KNOX-BOX® key box is used for most commercial applications including businesses, schools, government and public buildings, community associations and apartment complexes. The 3200 Series KNOX-BOX® with lift-off door holds keys, access cards and other small items necessary for emergency access.

Recessed Mount
with Face Flange

Surface Mount

Features and Benefits

- Holds up to 10 keys or 3 access cards in interior compartment
- Ensures high security with UL® Listed Medeco lock
- Includes a Knox-Coat® proprietary finishing process that protects Knox products up to four times better than standard powder coat
- Resists moist conditions with a weather resistant door gasket
- Colors: Black, Dark Bronze or Aluminum
- Weight: Surface mount – 8 lbs. (3.632 kg)
Recessed mount – 9 lbs. (4.086 kg)

Options

- Alarm tamper switches (UL Listed)
- Additional rust and corrosion protection (Aluminization)
- Recessed Mounting Kit (RMK) for recessed models only

KNOX
Serving Fire Departments Since 1975

3200 Series Lift-Off Door Model — Mounting Diagram

Recessed Mounting Kit

The 3200 Recessed Mounting Kit (RMK) is used for recessed models only. It contains a shell housing and mounting hardware to be cast-in-place in new concrete or masonry construction. After construction is completed, the KNOX-BOX® mounts inside the recessed shell housing. The RMK may only be used in new concrete or masonry construction.

Installation

Fasten the mounting kit to the inside wall of a concrete form or set-in-place during masonry wall construction. Connect the wiring conduit through one of several knockout holes in the shell housing.

Dimensions

(155.6 High x 152.4 Wide x 127.0 Deep)mm, including Rebar

IMPORTANT: Care should be taken to insure that the front of the RMK shell housing, including the cover plate and screw heads, is flush with the finish wall. The RMK must be plumbed to insure vertical alignment of the vault.

Figure A
Front View of Rear Plate

Attention: KNOX-BOX® key box is a very strong device that MUST be mounted properly to ensure maximum security and resist physical attack.

Recessed Mounting Using Recessed Mounting Kit (RMK)

Knox® Rapid Entry System

The Knox Company manufactures a complete line of high security products including Knox-Box® key boxes, key vaults, cabinets, key switches, padlocks, locking FDC caps and electronic master key security systems.
